

BUSTER Flex Range

The BUSTER Flex range of toys contains four unique styles of toy made from the highest non-toxic grade of silicone.

As well as acting as traditional play toys, all of the toys from the Flex Range can be filled with either dry treats or wet food. They can also be frozen with food inside.

These make them not only suitable for mental stimulation for your dog, but also to help aid with behavioural issues such as separation anxiety as they can be filled with treats and food and then left with your dog.

BUSTER Sensory Ball

The BUSTER Sensory Ball is designed to stimulate all of your dogs senses.

Smell & Taste - The ball has a distinctive beef smell that is designed to help stimulate your dog's sense of smell.

Sound - The sensory ball has both a squeak and a rattle for stimulation of the dog's hearing senses.

Feel - There are several different textures around the ball so that it has a unique feel for the dog depending on how they grip the ball.

Sight - The ball has 3 different colours in different patterns to stimulate the dog's sight senses.

BUSTER Strong Range

The BUSTER Strong Range contains several different types of toys made from an incredibly tough and durable non-toxic rubber. The rubber's strength is second to none and will hold up against the toughest of jaws. It has even been known to withstand an industrial blender.

There are ball's and bone's available with an extra tough rope through the middle for dogs that want to play "tug-o-war". There are also different shapes and types of bones without rope that are suitable for either using as a play/fetch toy, or an extra tough chew toy.

All the toys from the BUSTER Strong Range are available in Ice Blue colour.
