

BUSTER Reflective Gear Black

The entry level BUSTER Gear range guarantees a high quality durable product at extremely affordable prices. Made from solid nylon that encases a soft foam filling, reflective threads have been applied to ensure greater safety during walks at nightfall.

This range is perfect for the cost conscious dog owner who want to ensure that they have a high quality, well made collar, lead or harness that is comfortable for the dog and has a reflective element for added safety.

The 7-way leads is the ideal choice as the leads can be used in 7 different ways and adjusted to different purposes.

Available in three colours and four sizes.

BUSTER Gear, Reflective Mesh, Black

BUSTER Reflective Mesh Gear is a premium range of collars, leads and harnesses suitable for all different sizes, breeds and types of dog.

The soft webbing is padded and also meshed, which ensures that it remains not only durable but extremely light and also breathable.

All the metal components are made from a high quality durable stainless steel to ensure maximum safety at all times.

Two different lengths of leads mean that there will always be a size to suit your needs. The handle of the lead contains a small plastic buckle which means that if you need to tether your dog up anywhere there is never any need to disconnect the lead from the dog's collar or harness. That feature is perfect for young or excitable dogs, or for children handling your dog.

BUSTER Reflective Mesh is available in 4 different sizes and 3 different colours.

Cat. No	Description	Colour	Size
287100	BUSTER Reflective Mesh Collar	Black	Small (27-40 cm)
287101	BUSTER Reflective Mesh Collar	Black	Medium (34-50 cm)

BUSTER Gear, Neoprene, Black

BUSTER Neoprene Gear is a premium range of collars, leads and harnesses suitable for all different sizes, breeds and types of dog.

The collars, leads and harnesses are lined with an extra soft neoprene to ensure maximum comfort at all times. Reflective stitching also runs through all the products for added safety at night whilst walking your dog.

BUSTER Neoprene collars also contain a "low loading" feature where the collar passes through the stainless steel ring which means that anything connected to the collar will put less pressure on the buckle of the collar than a traditional collar. This vastly increases the safety and longevity of the collar.

As well as a traditional lead, a 7 way multipurpose training lead and bungee lead are available meaning that no matter your needs there will be a product available for you and your dog.

BUSTER Neoprene is available in 4 different sizes and 3 different colours.

Cat. No	Description	Colour	Size
287000	BUSTER Neoprene Collar	Black	Small (34-39 cm)
