BUSTER INTERACTIVE TOYS

The Background - Why a Buster Interactive Toy is useful
Buster Cubes and balls aim to combine feeding and play in an interactive way, while mentally stimulating and increasing the dexterity of dogs and cats. Both canine and feline obesity are rising at an alarming rate, and these toys provide an aid to the owner to manage at least part of the dry feed diet not in a bowl.

Each product has different levels of difficulty, and the mental

stimulation they create provides an increased level of exercise in combination with a normal walk. They can assist in the reduction of separation anxiety and enrich a pet's lifestyle by means of positive stimulation.

The range includes the Catmosphere, which is a weighted clear ball so cats can see the food, and by making the ball roll, they are rewarded with a piece of dry food being dispensed.

For dogs, the catmosphere is great for puppies to start with, they will then progress to the Buster Soft Cube, which delivers food every one in six rolls.

Finally, the Buster Food Cube and Buster Treat Ball are fitted with a Matrix, which has internal paddles so there's only a one in 36 chance of being rewarded.

By making pets work harder for their food, you are stimulating them in a positive way increasing their enjoyment, reducing obesity and it's also great fun to watch.

BUSTER Food Cube

KRUUSE's iconic BUSTER Cube is an ingenious toy recommended by many animal behaviourists.

Fill up the BUSTER Cube with food or treats to stimulate your dog both mentally and physically by encouraging natural hunting instincts. The tasty rewards keep your dog entertained for hours.

Catrine Catmosphere

Cats are hunters by nature. Stimulate your cat's curiosity with this unique treat dispenser. Filled with your cat's favorite treats the dispenser creates an unpredictable roll that engages the cat to chase it.

Once the toy is caught, the cat is rewarded with a treat. The physical stimulation involved in the chase makes the dispenser suitable in supporting controlled diets and treatment of feline obesity. The toy is also suitable for puppies.

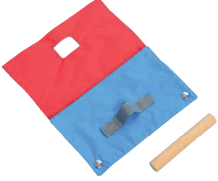

Cat. No	Description	Colour	Size
274510	Catrine Catmosphere treat ball	Black	95 mm
274511	Catrine Catmosphere treat ball	Red	95 mm

■ A unique and innovative activity mat for your dog where the difficulty can be adjusted to meet your dog's needs

■ ActivityMat is an interactive puzzle for you and your dog. The dog must be supervised when working with ActivityMat

■ Helps supports the relationship between you and your dog and will give you many hours of interactive play and training

■ The ActivityMat can be expanded with new tasks, so you will always have new challenges for your dog

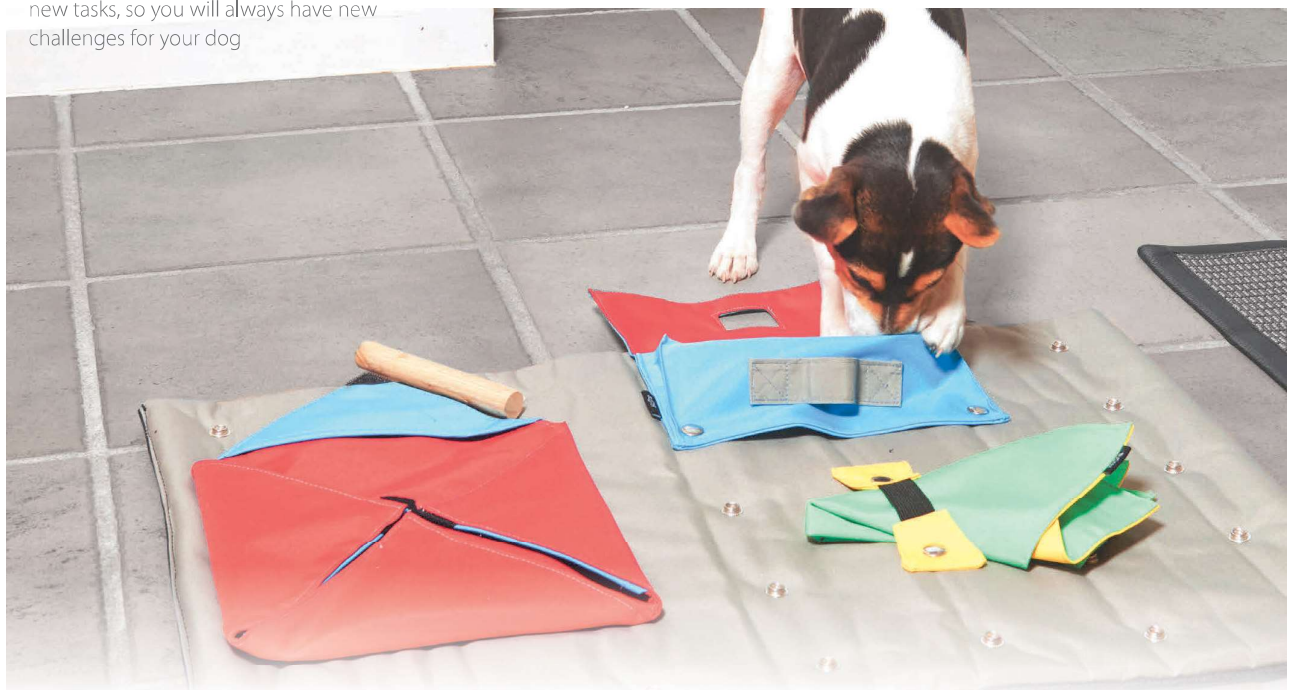

■ Some dogs choose to use their paws, others their nose. Learn to accept the way the dog chooses to solve the task

■ It is important that the dog gets a positive experience when working with ActivityMat. Give the dog the help it needs, without taking the initiative away from the dog and solving the task for them

■ When the dog is not sure what it should do, then it is a good idea to give them a treat just for touching the mat or a task

■ If the dog is over excited then it may be a good idea to let him eat first. However if the dog is not too interested when first presented with ActivityMat then it could be an advantage that it is hungry. Choose what feels right for you and your dog
